

Website Testing: 10/03/2023

**Feature implemented by:** Saahil Shah (ss2357)

**Feature tested by :** Tope Balogun (tb520)

## Functionality Testing:

### Cross-Browser compatibility:

- Website functionality in safari browser(MacBook): works fine and all the pages are displaying perfectly. ✓
- Website functionality in Google Chrome: Error, the login and registration pages don't display correctly, the checkbox and radio button is outside the form, the place holders for the input fields don't show. These pages originally had a checkbox to click on to show the password. ✗
