Feature implemented by: Saahil Shah (ss2357)

Feature tested by : Miracle Okeke (mico2)

Functionality Testing:

EASY QUIZ, MEDUIM QUIZ AND HARD QUIZ: Saving score to database.

- After finishing the quiz, the name of the user and their score should be automatically added to the database: error, since the score is saved to the local storage, the score was not able to be automatically added to the database. ✕

Error Fixed:

- After finishing the quiz, the name of the user and their score should be automatically added to the database: error, since the score is saved to the local storage, the score was not able to be automatically added to the database:: found an alternative solution which is by adding 2 input fields namely; nickname and score where the user would have to manually type in their name and score and click the save button for it to be added to the database

Congratulations Dheer!
Here's Your Score out of 150

10

Enter your nickname and score for it To Be displayed On The Leaderboard !
