

Website Testing: 25/01/2023

**Feature implemented by:** Saahil Shah (ss2357)

**Feature tested by :** Tope Balogun (tb520)

## Functionality Testing:

### Login

- Entering email, password. ✓
- Show password feature for password and confirm password: eye icon displays but when clicked on, the password does not appear in text. ✗
- "Forgot password?" link works fine and once clicked, it takes you to the Forgotten password page to change it. ✓
- Registration and Homepage button: Works fine and each button takes the user to its respective pages. ✓
- Login Now button function : after entering the details, and clicking in the button, an error is shown. ✗

### **Object not found!**

The requested URL was not found on this server. The link on the [referring page](#) seems to be wrong or outdated. Please inform the author of [that page](#) about the error.

If you think this is a server error, please contact the [webmaster](#).

### **Error 404**

[localhost](#)  
Apache/2.4.54 (Unix) OpenSSL/1.1.1s PHP/8.2.0 mod\_perl/2.0.12 Perl/v5.34.1

- Incorrect details typed: Works fine as the details entered are cross-checked with the details in the database and if there is no user with that email and password then an error message appears. ✓

incorrect email or password!, Please Register first!

Close

- Both email and password must be provided in order for the form to submit successfully: works fine as an error is shown if any one of the fields is empty ✓
