Functionality Testing:

EASY QUIZ: Highscores

- Entering nickname, score. ✓

- Save button works fine and success message shown after clicked on: insert statement used which inserts the values of nickname and score to the database table. ✓

Your Nickname and score have been successfully added!

Close

- After saving the name and score to the leader board, user should not be able to save it again: error as the user is able to click the save button again and multiple entries of the same name and score are created. ✗

- High scores button on the quiz main page : works fine and this redirects the user to the leader board page. ✓

- Leaderboard displaying on the highscores page: works, a table is displayed showing all the users nicknames, position, and their scores. ✓

Welcome to the Leaderboard

Difficulty Level: Easy

Position	Nickname	Score (pts)
1	Dheer	70
2	saahil	40
3	John2399	10

Back To Quiz

- "Back to quiz" button works fine and directs the user to the quiz main page. ✓

- Leader board displaying with highest score first: works fine as the table is in descending order showing the user with the highest score first. ✓

- When more users are displayed, the table and the button overlap and page loos messy-error ✗

Welcome to the Leaderboard

Difficulty Level: Easy

Position	Nickname	Score (pts)
