# USER STORIES (GROUP 36)

## Tope (tb520)

- As a developer, I want the difficulty of the quiz to cater to everyone so that everyone has a fair chance.
- As a developer, I want the quiz to be interactive for users so they can know what is going on in the quiz.
- As a user, I want to be able to track my progress on the quizzes i have done so i can know if i am improving.
- As a user i want to be able to use the website on my mobile phone as well as my laptop
- As a user, I want to be able to see the answers at the end of the quiz so I can improve my knowledge.
- As a user i want to be able to play the same quiz multiple times so i can't perfect my knowledge and answers
- As a developer i want to add some sort of animation so that the user can have a better overall experience
- As a user i want to be able to create my own type of quiz so i can be more interactive
- As a developer i want to add a live score for the quiz so the user can track their scores whilst doing the quiz

## Saahil (ss2357)

- As a developer, I would like the option to show passwords so the user can know what they've typed in is correct.
- As a developer i want to add the user's session name into all the pages so that the user can feel more interactive and have a better user experience.
- As a user i want there to be an easy navigation so i can access any part of the website from anywhere
- As a user i want to be able to navigate back to the homepage from whichever page i am on
- As a user, I want to be able to register and login in securely so that I can access the website.
- As a user, I want to be able to change my password so that I can still access the website in case I have forgotten my password.
- As a user, I want to be able to chat with other users so I can be able to discuss the quiz & other things.
- As a user, I want to be able to see the leader board so that I can see my ranking amongst other users.
- As a user, I want the website to remember my login credentials, so I don't have to log in every time I visit the website.
- As a developer i want to make sure that there is enough security so that a user cannot change another user's password
- As a developer i want to make sure that the user's password is strong so that there is no chance for breaching security

- As a developer i want to add a timer for the quiz so that the quiz can be challenging for the user

# Clifford (ca517)
- As a user, I want to be able to comment on the videos I have watched.
- As a user, I want to be able to watch videos without switching to another window.
- As a user, I want to be able to like and unlike videos as I please so i can have a contribution.
- As a user, I would like the video guides to be automatically refreshed weekly so i can learn new things every week.

# Miracle(mico2)
- As a user i want to be able to contact someone so i can ask questions regarding the website
- As a developer, I want to create a chat box for people to talk, so they can have one on one conversations.
- As a user i want to be able to ask the chatbot any type of questions so i can get help where i am stuck.
- As a user, I want to be able to send a message to the youdle team so that i can contact them.

# Aziz(aas49)
- As a user, I want there to be additional material and learning recourses so that i can gain extra knowledge.
- As a user, I would like to find new articles each day that can extend my learning.
